Descrizione

Stagna Sandiline Junior

Optimized cuts, new design, more reflective zones & the option to choose between a neoprene or latex neck cuff.

DETAILS

The junior PRO II is an evolution of the junior PRO drysuit. The cuts have been optimized for better fitting, the superstretch neoprene neck cuff gives more warmth, durability and comfort, more reflective zones and a flap over the dry zipper make it even safer while the new design a fashionable product.

Latex boots and wrists ensure that no water enters from the dry suit cavities. The front dry zipper allows you easy dressing and closing of the suit. Elasticated waist, adjustable half belt, internal elasticated braces and preformed cuts makes this product extremely comfortable and usable for a longer period of time (growth). The durability of the drysuit is assured by high tenacity Cordura inserts on knees and seat.

Each sandiline dry suit is tested for waterproofness before being put on the market ...who else can assure you this?

Features:

- breathable & waterproof 4 layer fabric
- waterproof 20.000 mm (EN20811)
- breathable 9.000 g/sqm/24h
- superstretch neoprene neck cuff
- welded seams
- Cordura reinforcements on knees & seat part

also available with latex neck cuff
